It is important that children are included in the viewing process. We ask that **you bring your child in to the nursery** when viewing so that s/he has the opportunity to explore the setting. It also enables us to discuss your child's needs and to ensure that we can fully meet their requirements. It is also a good opportunity for your child to meet the team and their new surroundings before settling in. If you find that you no longer need the place, please inform us as soon as possible.
